

CRESTRON HOME™ APP QUICK START GUIDE

Certain features shown may not appear on your mobile device.
Contact your Crestron dealer for more information

Welcome to your Crestron Home.

The Crestron Home App makes it easy to access and control every aspect of your home—from your phone, tablet, or touch screen.

This guide will walk you through basic navigation, room controls and settings, and how to make your Crestron Home your own. So let's get started.

HOME PAGE - MAIN NAVIGATION

Navigating your Crestron smart home starts here.

Currently selected home.

See status of security system and doors.

Tap ... to access more advanced settings such as changing your home page image.

To choose your home page image see page 26.

Quick Actions are like shortcuts. They give you the ability to easily execute a **Scene**, or a combination of different commands, with one tap.

Home Controls apply only to systems that affect your entire home, such as security. Simply swipe up to see every system available to you.

Home button appears on every page, so you can always quickly navigate your way back.

Rooms gives you control of all the different rooms and areas in your home.

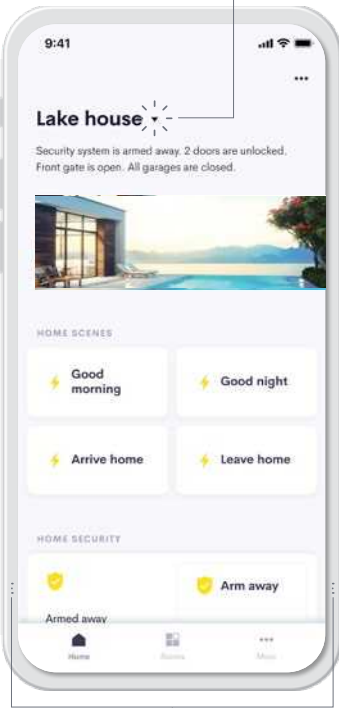

Tap **More** for information on your Crestron system and Crestron customer support.

HOME SELECTOR

Have more than one residence with a Crestron smart home system?
The Crestron Home app makes it easy to manage and control them, remotely or on premises.

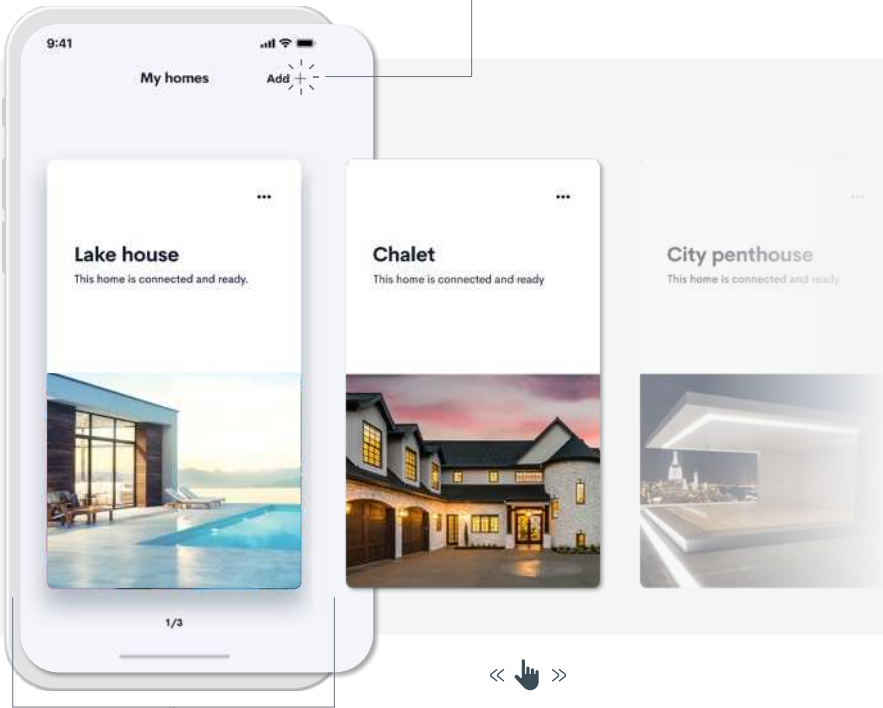

Tap the down arrow to view your Crestron smart homes. Select the one you wish to control from the drop-down menu.

Home page

Tap + to add another home.

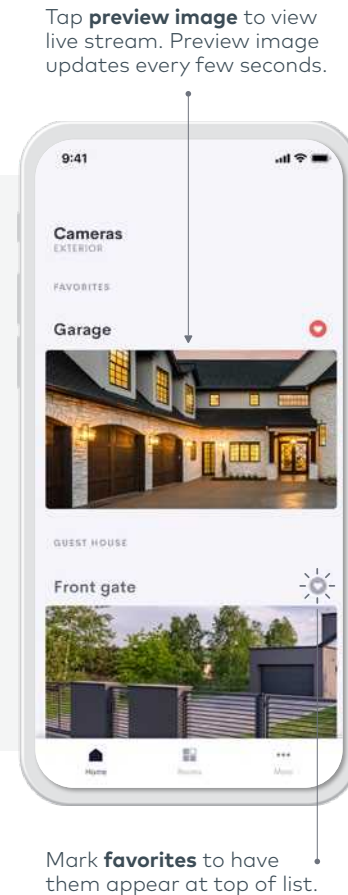

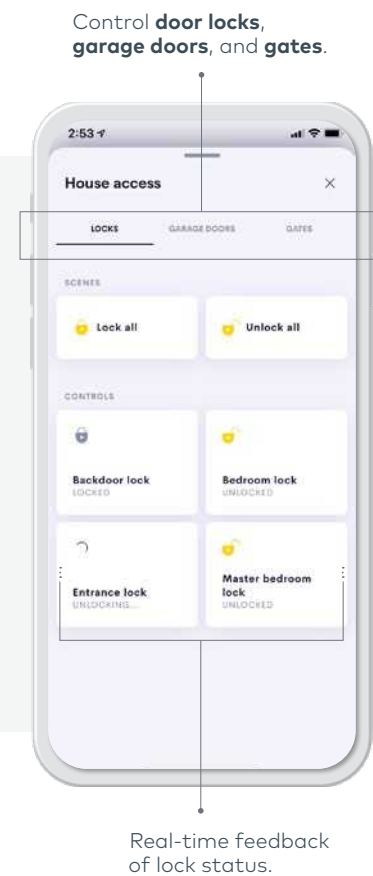

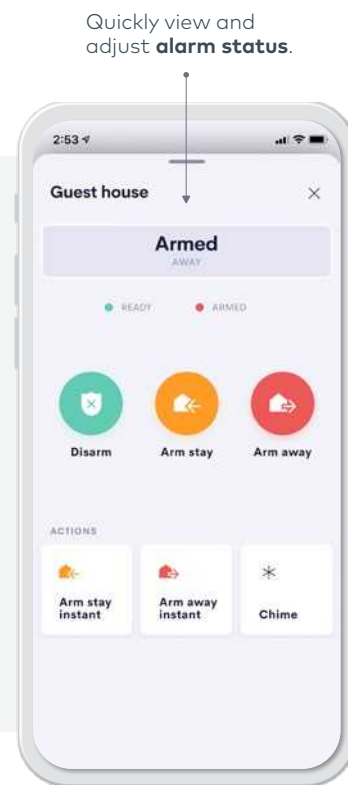

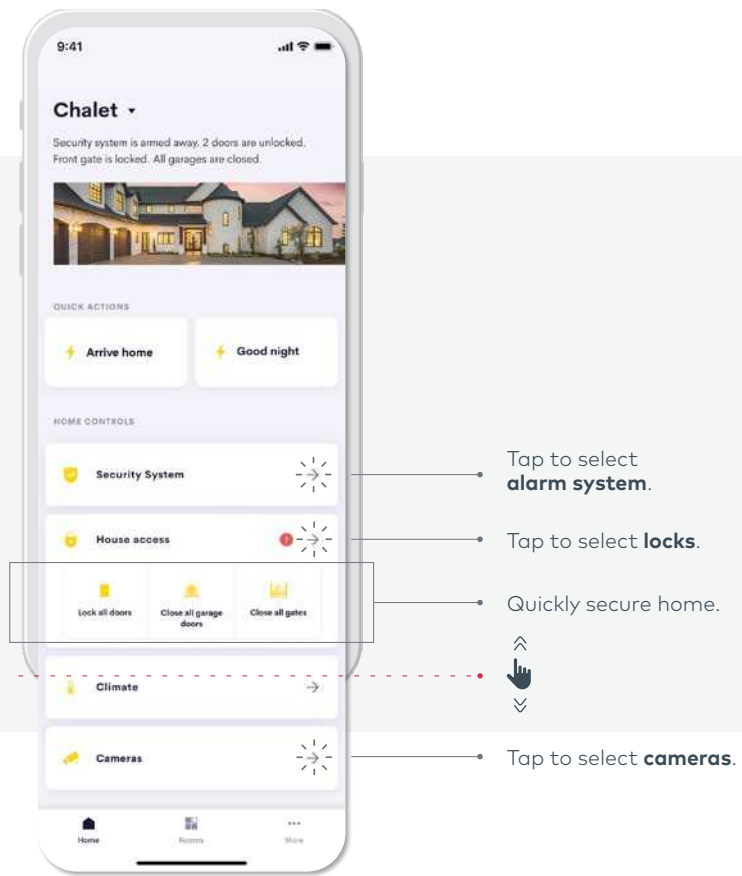

My homes

Swipe left or right to select the Crestron smart home you wish to control.

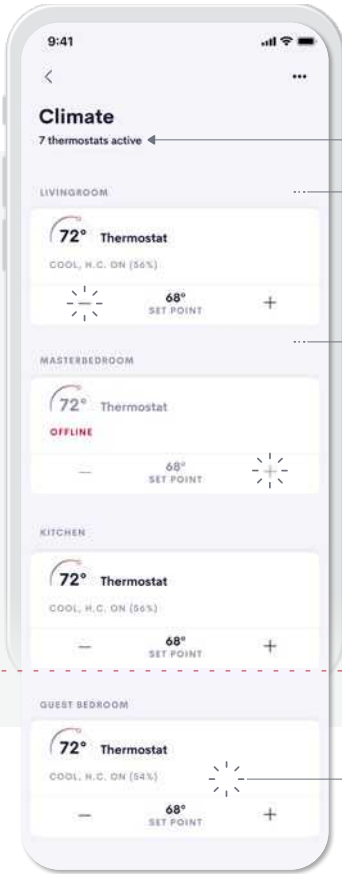

SECURITY

Access and control your alarms, entry locks, and cameras from wherever you happen to be.

CLIMATE

Set the perfect temperature in every room.
Maximize energy savings.

Indicates how many thermostats are active in your home

Check thermostat set points and current temperature in every room. Tap + or - to adjust temperature.

Tap individual thermostat tile for more information and advanced controls.

Tap and move set points dynamically.

Tap Low or High to adjust temperature.

Tap **Mode** to access specific climate settings such as Cool or Heat.

CLIMATE

Program your home to adapt to the seasons.

Use **Scheduled Events** to automatically activate season specific settings.

All scheduled events will show in this window.

Tap arrow to edit and view event details.

Key event details will appear on screen.

Tap to create new **Scheduled Event**.

Tap to highlight the days event should be active.

Swipe up or down to select start and end time.

Tap to set points temperature.

Tap to schedule event then press save to activate event.

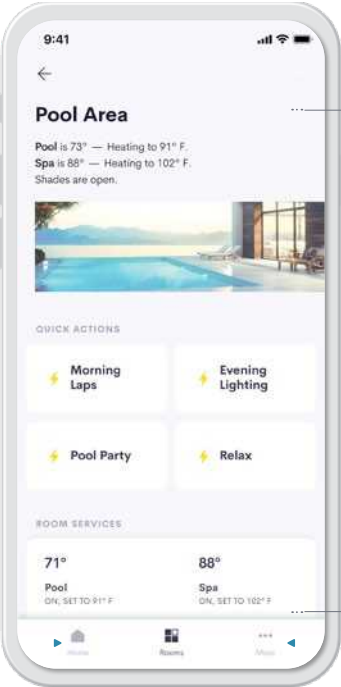

A modern living room with a large white sectional sofa, a floor lamp, and large windows overlooking a green landscape. The room is bright and airy, with a minimalist design. The sofa is positioned against a light-colored wall, and a large floor lamp stands next to it. The windows are floor-to-ceiling, providing a view of a lush green area with trees. The floor is made of large, light-colored tiles.

POOL & SPA

Make your personal oasis feel like heaven

See current status and set the scene for your favorite pool activities with one tap.

Set preferred water temperature.

Control all pool/spa features, e.g. waterfall, slide, jet speed, and lights.

Dark Mode is easier on the eyes, especially in unlit environments.

ROOMS

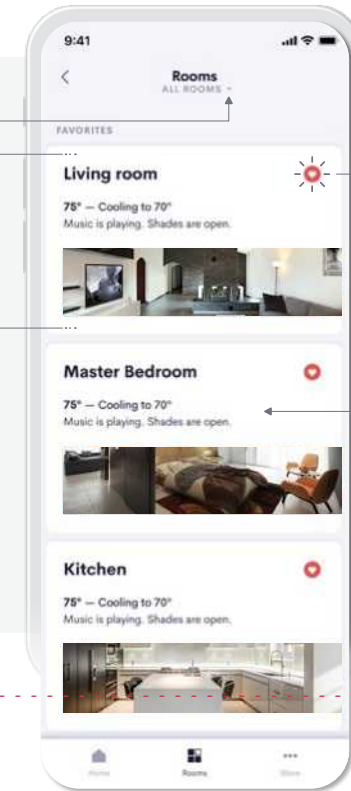

Manage how you'd like to view your home

Tap here to select the room you want.
Rooms are organized by floor or area.

Each room can be given a unique
name and custom image.

Scroll up or down to see all
your rooms and areas.

Tap ♥ to designate a room or
area a Favorite. Favorites will
appear at the top.

Key information about each
room is displayed here.

ROOM VIEW

See every action you can take in each room.

Diagram illustrating the Room View interface in light theme. Callouts include:

- Displays status of systems in the room. (Points to temperature and shades status)
- Tap < to go back to the main Rooms page. (Points to back arrow)
- Use ... to Change/Add room image (Points to image icon)
- Your personal room image confirms you're in the room you want to control. (Points to room photo)
- Tap to activate Quick Actions such as on or off. (Points to Room off button)
- This check mark indicates that your quick action is active. (Points to checkmark on Relax button)
- Tap icons below to access Room Services, for more advanced controls. (Points to Room Services section)
- Tap to go back to the main Rooms page. (Points to Rooms icon in bottom bar)

With Room Services you can finely control everything from lights and shades, to temperature, music, and video.

Dark Mode
Select in your iOS® device settings, as usual.

Press + or - to adjust temperature. Tap the **Climate** tile to access more advanced control.

Audio and Video tiles display what's currently playing in the room.

Diagram illustrating the Room View interface in dark theme. Callouts include:

- Tap the 3 horizontal dots to access more advanced control. (Points to dots in Quick Actions)
- Tap **Lights** or **Shades** to access simple actions such as On, Off, Open, or Close. (Points to Lights and Lights Open buttons)
- Tap Audio and Video tiles to access basic controls. (Points to Audio and Video tiles)

LIGHTS

Fine tune room lighting to set the perfect mood for any activity.

Swipe down or tap X to close control panel.

Tap any of the available **Lighting Scenes** to activate them.

Tap + or - buttons to globally adjust lights in the room.

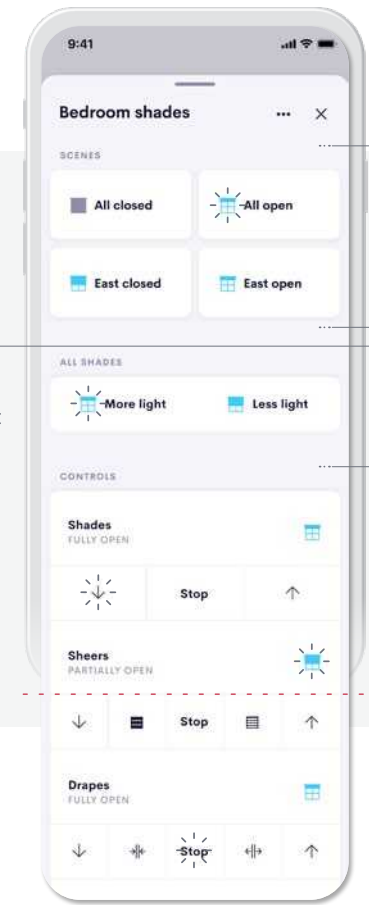

Press to toggle lights on and off.

Drag sliders left or right to adjust different lighting groups in the room.

Dark Mode

SHADES

Manage natural light for different activities;
ensure privacy at night; enhance energy savings.

Tap to activate available
Shades Scenes.

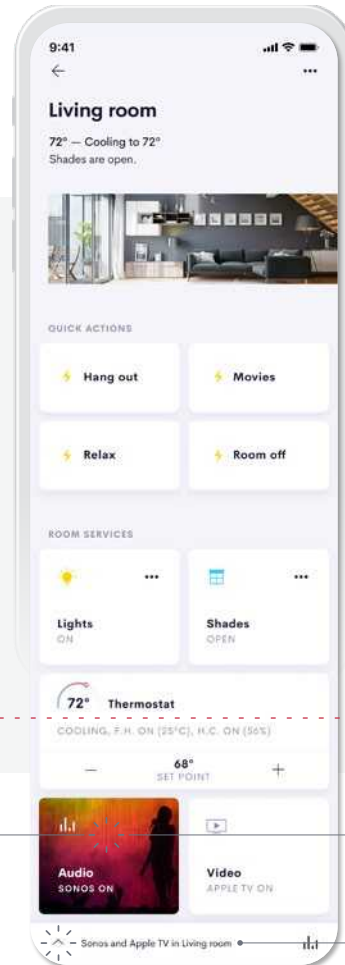

Tap to command all shades
to let in more light or less light.

Tap to control each shade
or shade group.

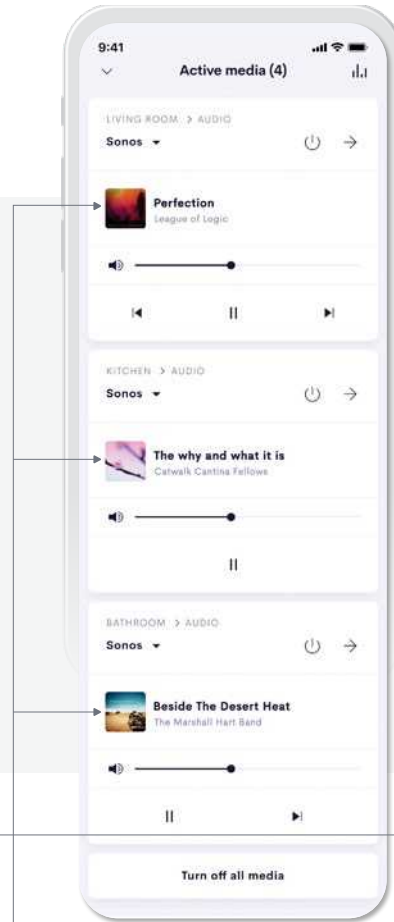

AUDIO

Play your favorite music throughout the house, or different music in every room.

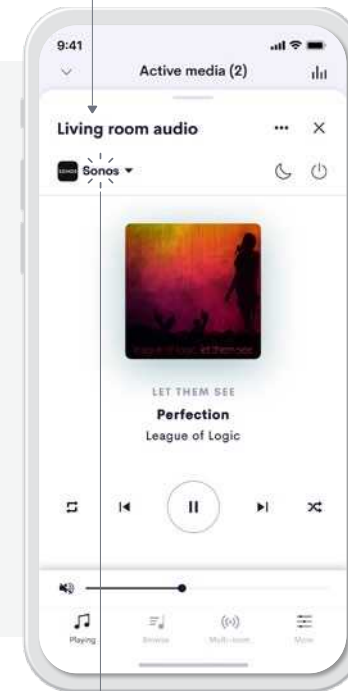

Tap here to access Active Media Screens.

Tap **Audio** on your Home page to access the **Active Media** page. See what's playing in any room.

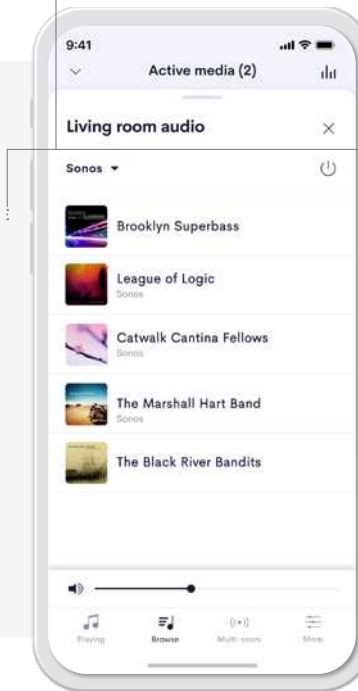

Tap the room tile for more information on audio in that room.

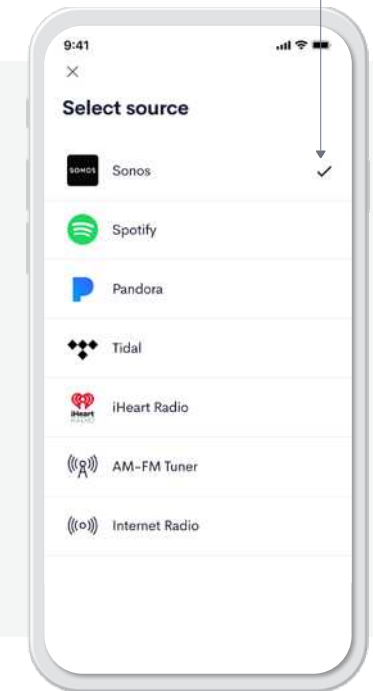

Tap to open your music in Sonos app.

Tap to select your favorite artists/music.

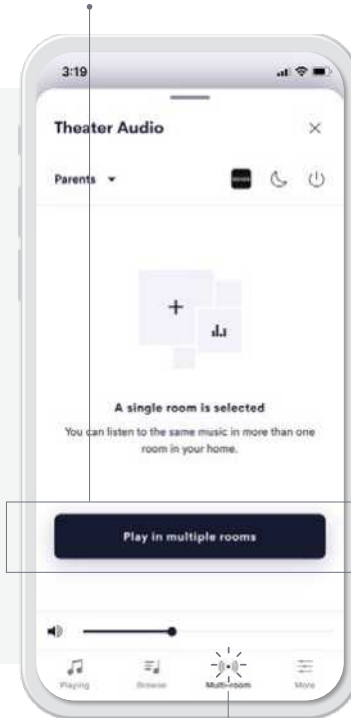

Tap to select source. Check mark will appear to confirm selection.

AUDIO

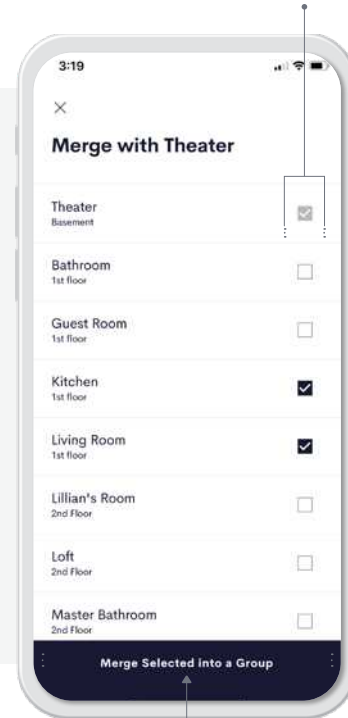

Continued
